ALABAMA'S PREMIER FILM STUDIO MOON MEN DJs PARTNERS WITH RECORDING ARTIST SHERRI BROWN TO PRODUCE LIVE CONCERT EXPERIENCE FOR BIRMINGHAM COMMUNITY

Sherri Brown Live — A One-Night-Only Production Event at WorkPlay Theatre — May 24, 2026

BIRMINGHAM, AL — Alabama's premier full-service video, media, and live event production company, [Moon Men DJs \(MMDJS\)](#), and acclaimed R&B recording artist **Sherri Brown of Sherri Brown Music**, have announced a powerhouse creative collaboration to produce [Sherri Brown Live](#) — a one-night-only, fully-cinematic concert experience taking place Memorial Day weekend at WorkPlay Theatre on **Sunday, May 24, 2026 at 7:00 P.M.**

This electrifying collaboration brings together the production vision of Stellar Award-winning cinematographer **Kevin Key**, founder of Moon Men DJs, and the artistry of soul-stirring R&B vocalist, **Sherri Brown** — merging cutting-edge filmmaking, arena-level live event production, and raw musical talent to deliver an experience that doesn't just entertain — it *moves* you.

A Collaboration Built to Create a Memorable Moment

Sherri Brown Live is not just a concert — it is a fully-produced, immersive live event engineered from the ground up by two of Birmingham's most influential forces in music and entertainment. This is what happens when world-class production vision meets undeniable artistic power.

Moon Men DJs — the same team behind multi-camera arena productions, cinematic LED wall integrations, and high-production-value live events across the Southeast — will deploy their full arsenal for this night: **massive LED video walls, cinematic multi-camera capture, precision lighting design, and concert-grade sound** that fills every corner of the room. This isn't a setup. It's a system — built to make every seat feel like the best seat in the house.

Sherri Brown brings the kind of vocal firepower and magnetic stage presence that doesn't need a filter. She commands a room while owning a moment. And on May 24th, she's bringing everything she has.

Together, Kevin Key and Sherri Brown are not just putting on a show. They're orchestrating a memorable experience people will still be talking about when the lights come back on.

"At Moon Men DJS, we don't settle for ordinary — we build environments where extraordinary happens," said **Kevin Key**, founder of Moon Men DJS. "Partnering with Sherri Brown elevated this production to another level entirely. This collaboration is about elevating live music in our city and proving that Birmingham deserves world-class experiences."

"Working with Kevin Key and Moon Men DJS has been an incredible, creative partnership," stated Sherri Brown. "This concert is about connection, energy, and leaving every single person in that room inspired."

What to Expect

Sherri Brown is a powerhouse — breathtaking, charismatic, and the kind of vocalist who can silence a room and ignite it again in the same breath. Audiences can expect fan-favorite originals, high-energy covers, and a fully cinematic stage environment engineered to feel like a premium, arena-level live event — not "just a show."

The audience vibe is classy — dressed-to-impress — camera-ready and primed for a real moment.

Don't wait and catch this one on somebody's phone. Seating is **limited** — and once tickets are gone, they're gone.
